STENKIM CONSTRUCTION CHEMICALS

TRANSFORMING FOUNDATIONS INTO MASTERPIECES

A Legacy of Innovation

Since 1986, Stenkim® Construction Chemicals has been at the forefront of specialized construction materials, including advanced sealants, flooring systems, coatings, concrete repair solutions, and waterproofing technologies. Through decades of proven performance, we've consistently developed products that exceed industry standards and outperform multinational competitors.

Stenfloor Terra

WHERE VISION MEETS PERFORMANCE
PROVEN EXCELLENCE IN EVERY STEP

StenFloor Terra represents the pinnacle of epoxy terrazzo technology, backed by decades of successful installations worldwide. Our system combines advanced epoxy formulation with precise installation methods, delivering consistent excellence in the most demanding environments. From international airports to prestigious institutions, StenFloor Terra has demonstrated its reliability through years of sustained performance.

Success Through Experience: Princess Juliana Airport

The transformation of Princess Juliana Airport in St. Maarten showcases StenFloor Terra's capabilities in large-scale applications. Selected as part of the airport's modernization initiative, our system delivered:

- Exceptional durability under intense traffic conditions
- Significant reduction in maintenance requirements and costs
- Enhanced passenger experience through superior functionality
- Sustained aesthetic excellence that creates a lasting impression

This successful implementation joins our growing portfolio of major installations across transportation hubs, healthcare facilities, and commercial centers worldwide.

DESIGN FREEDOM

Imagine floors that seamlessly blend vibrant colors, dynamic textures, and stunning patterns—turning architectural spaces into immersive experiences. From sleek monochromatic designs to intricate artistic compositions, StenFloor Terra unlocks unlimited creative potential.

Our system offers:

- **Unlimited color selection** to match any design requirement
- **Rich material combinations** incorporating marble, glass, and decorative aggregates
- **Pattern capabilities** ranging from minimal to complex geometric designs
- **Seamless installation** that allows uninterrupted visual flow
- **Integration of logos and custom motifs**

Engineering Excellence

Behind its stunning aesthetics, StenFloor Terra delivers measurable advantages that matter:

- **Superior durability** in high-traffic environments
- **Enhanced resistance** to staining and wear
- **Outstanding structural integrity**
- **Seamless, joint-free installation**

Our rigorous quality control ensures consistent excellence from raw material selection through final installation, supported by comprehensive technical expertise throughout your project.

SUSTAINABLE EXCELLENCE

StenFloor Terra is engineered for sustainability, minimizing environmental impact without compromising performance. By using zero-VOC materials, integrating recycled content, and extending lifecycle durability, our terrazzo system supports greener, healthier spaces.

Partnership in Excellence

When you choose StenFloor Terra, you gain more than a flooring system:

- **Access to years** of epoxy terrazzo expertise
- **Design consultation** that brings your vision to life
- **Technical support** throughout your project
- **Quality assurance** at every stage

THE COMPLETE SOLUTION

StenFloor Terra represents the perfect fusion of proven performance and creative possibility. Our system delivers:

- **Time-tested reliability** through countless successful installations
- **Design versatility** that adapts to your architectural vision
- **Superior epoxy technology** developed through continuous innovation
- **Comprehensive support** from specification through installation
- **Long-term durability** that protects your investment

Experience the StenFloor Terra Advantage

Join the growing number of architects, designers, and developers who trust Stenkim for their most ambitious projects. Let's collaborate to create something extraordinary. Contact us today.
